### Product Highlights

The FREEDOM<sup>TM</sup> 631 and LPR2000<sup>TM</sup> 637 deploy unique opposing-force technology to accelerate healing in the lumbar spine. Patients often experience immediate pain relief from the compression and postural improvement that these supports provide.

- Relieves load on lumbar discs
- Disc space creation can alleviate nerve root impingement
- Low profile design for maximum patient compliance and comfort
- Unique design lifts and holds the patient's anterior weight
- Posterior panel extends from the Sacrococcygeal Junction to the T-9 vertebrae
- Easy to clean and dry

The LPR2000<sup>TM</sup> 637 includes side lateral panels that produce intracavitary pressure to reduce load on intervertebral discs.
